Thomas Bullock CE Primary Academy

Home Learning – Year 2 – Friday 27th March

Maths: Todays Learning Objective is: **Understanding whole and parts**. I have attached some input questions to work through together as a starter; I have also attached the teacher notes. Once this is complete the children can have a go at the lesson with is on Page 146-147. The lesson also consists of a challenge on Page 148 and a reflection which children may need assistance with. This often depends on their ability so do not worry too much as long as they understand the main lesson.

English: Todays Learning Objective is: **To rewrite a section of your story and improve it.**

We would like you to:

- Read through your story that you wrote yesterday, can you make any parts of it better? Think about detail and really describing the setting, characters etc. Have you got adjectives, nouns, verbs, and connectives in your work? Can someone at your house read through it and help you if you are unsure how you can improve it. Rewrite a section of your story that you want to improve and make even better.

Grammar: SAT practice books (grammar, punctuation and spelling) page 18-19 – Ending sentences.

Spellings: Continue with this week's spellings and your handwriting. I have added the answers to the elements I can.

Our theme for classroom inspiration is: Let's Grow! – During this unit we have been finding about how things grow including, plants, animals and people. These tasks will remain the same for the week.

Perhaps you could plant some seeds and keep a growing diary.

In class you have been drawing plants and flowers in the style of Georgia O'Keeffe. – continue drawing and using other things to make pictures of plants and flowers. Remember to look at the detail and when you colour, think about the different tones.
