Thomas Bullock CE Primary Academy

Home Learning – Year 5 – 20th April

In Maths this half term we are continuing work on Fractions, Decimals and Percentages. This will be with a mixed range of videos, PowerPoints and online activities.

Each day we will look at at least 3 different Maths challenges. The first will be timed, the second will be an arithmetic based set of questions and/or learning. The third will be the lesson and work to be completed that day.

Challenge 1: The first challenge is a 3 in 3. Can you answer 3 Maths Questions and time yourself by answering them in 3 minutes?

Challenge 2: Answer the arithmetic questions. First talk them through with an adult, how will you solve them? Why did you make that choice? What is the best method? Can you answer them in your head? How will you check them?

Challenge 3: Watch the learning video for today and answer the matching questions. Todays maths is from WhiteRose. It is Week 1: Lesson 1 https://whiterosemaths.com/homelearning/year-5/: Adding Decimals

Maths Game: https://www.mathplayground.com/treasure_quest_decimal_chart.html
