Year 5- Day 3

MATHS WEEK 7- SUMMER 2

ADDITION AND SUBTRACTION

Challenge 1

You have 4 minutes to complete the next 4 questions!
Good luck

Challenge 1

1) Change $\frac{7}{4}$ to a mixed number.

2) What is 47×32 ?

3) Fill in the missing number $36 \div ____ = 4$

4) What is one hundred more than 28,409?

Challenge 1

1) Change $\frac{7}{4}$ to a mixed number. $1\frac{3}{4}$

2) What is 47×32 ? 1,504

3) Fill in the missing number $36 \div ____ = 4$ 9

4) What is one hundred more than 28,409? 28,509

Time Challenge

What's the time Year 5?

What will the time be in 3 ¼ hours?

What was the time 1 ½ hours ago?

Challenge 2- Multiplication

WALT: Round to estimate and approximate

Find a video of the lesson here:
https://vimeo.com/425569901

WALT: Round to estimate and approximate

The worksheet for you to use is in the folder for today's learning:

Please watch the videos before trying to use the work sheets!

WALT: Round to estimate and approximate

Extra Practice?
See BBC BiteSize:
https://www.bbc.co.uk/bitesize/articles/zfdpnrd

Answers: In today's folder

WALT: Round to estimate and approximate

4,832 + 1,299 is approximately 6,000

WALT: Round to estimate and approximate

True

Both numbers have been rounded
to the nearest thousand.

4,832 has been rounded to 5,000

1,299 has been rounded to 1,000

So 4,832 + 1,299 is approximately 6,000

Problem Solving and Mixed Practice

Now please go onto RM Easi Maths for at least 2 x 15 minute sessions
