English:

1)Watch the poem 'Boogy Woogy Buggy' being performed by Michael Rosen the poet

https://www.youtube.com/watch?v=_ONsFUMIHNM

- 2) In the performance it sounds as if the buggy is moving to the sound of a jive or boogie woogie dance tune. What do you think? (if you're not sure what that sounds like see if you can find some to listen to online)
- 3) Imagine ordinary objects could do extraordinary things e.g.

A settee could be as soft as a duvet when you sit on it. Then it has an attachable cover so you can fold it over yourself. Then, wrapped up in the *duvet settee* it would be just like being in bed!

Think about amazing or extraordinary things these object could do:

- A vacuum cleaner
- A hair dryer
- A lawn mower
- 4) Design an advert that would sell the new exciting qualities of one your imaginary objects.
