

EYFS playful ideas

26/03/2020

Find somewhere unusual/ different in your house or garden and snuggle up to read a favourite story. Don't forget to share a picture on Tapes-try if you can :)

MATHS

Can you say what is 1 more or 1 less than a given number? Say a number within 10 and your child must say what is 1 more or 1 less than that number.

Challenge: extend to number within 20.

One More One Less

Create a feely bag or box which you can't see into (no plastic bags please). Add items in from around the home. Take it in turns to feel into the bag and describe the object. Think about the descriptive words; is it bumpy or smooth? Can you find two objects with bumpy bits? Can you guess what it is?

physical development

Check out this simple playdoh recipe <https://www.bbcgoodfood.com/howto/guide/playdough-recipe> .(food colouring can be replaced by some readymix paint). Let your child help with the mixing and kneading with their hands to help develop their muscles needed for writing. Once made, it can be kept in an airtight container for use as the days go by...I'll set some more activities using this :)
