

## Easter Holiday Home Learning

This will be the only page to be posted over the Easter Holiday.

Please feel free to use some of the ideas or use work and activities from previous class pages. The pages are provided to support you but they are a guide to the things you can be learning and if there are multiple activities you should choose the things you do.

Our theme over the holiday is:

Spring.

HAPPY  
EASTER

Make a wild crown! Make a crown from things you collect in the garden or on a walk and wear it all day – don't forget to send a photo!

Make friends with a bug – ladybirds, woodlice & spiders. There are all kinds of creepy crawlies hiding in your garden. Watch what they do. Don't pick them up or handle them they are very delicate. Try making somewhere for them to live –

Grow a plant – you definitely can't do this in a day or two but you can plant a seed at the start of the holiday and see how much it grows by the end.

Keep a nature Diary – Spring is a time when things change a lot. Note down and draw any changes in plants.

Create some Wild Art – use things from your garden to create an image – Listen to 'Leaf Man':

<https://www.youtube.com/watch?v=Y3la1YSha3M> – although this is an autumn story you could make spring versions of the pages.

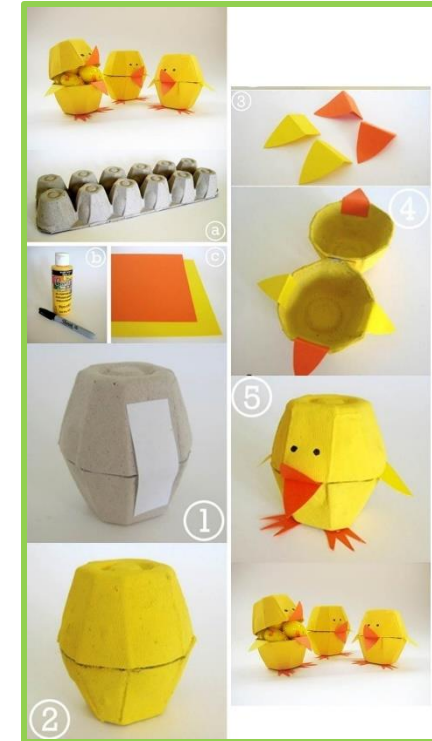

Make an Easter Garden – Share the Easter story in a natural and hands-on way.

Decorate an Easter Tree - Easter eggs aren't just for hiding! In Germany and Sweden, they've been used for centuries to decorate the branches of trees or plants as a symbol of spring's arrival.

Try some Easter crafts -

Can you come up with some ideas of your own? If you do take some photographs and send them to:

[office@thomasbullock.dnet.org](mailto:office@thomasbullock.dnet.org) - so everyone can try them out! Most of all have fun and enjoy your learning activities.
