

Thomas Bullock CE Primary Academy

Home Learning: Year 3 Topic Lessons

Science:

I would aim to do Science on Monday (if possible!) as this will help with your English! You will be planning and begin carrying out your own investigation linked to our plants topic. Follow the PowerPoint where it will all be explained!

<https://www.bbc.co.uk/bitesize/clips/z9f87hv> - Watch this video to begin with!

The PowerPoint with me talking you through it can be found here - <https://vimeo.com/411343055> Password: Africa

I know lots of you planted seeds last week so you can use those plants to carry out this experiment.

You need to record the results over the next 2 weeks and then we will fill out the final box on the recording sheet week beginning Monday 11th May where you can tell me what you found out from your experiment.

Check on your plant's progress during the week

Geography:

<https://www.bbc.co.uk/bitesize/articles/zhtyv7> - Lessons on maps.

Draw a map of your local area (Try to do as much of it from memory as you can!)

Label the road names carefully and add in the correct symbols to help people identify particular places.

Art:

Your task is to create your own, William Morris inspired art! I have put a file with a selection of Morris' art work in, so you can have another look at it. You can use paint, pencils, crayons – whatever you choose to create your own piece. Try to use the nature element to make yours similar (but not the same!) to his work. You might want to look at some plants in the garden to draw/sketch and use in your piece.

PE:

<https://www.youtube.com/user/CosmicKidsYoga>

Here you can find Pokemon yoga, Harry Potter yoga, princess yoga, or just mini brain break sessions!
