

The graph shows the growth of a plant over 6 months.

- How tall was the plant when it was measured in May?
- In what month did the plant first reach 50 cm?
- How many centimetres did the plant grow between March and July?
- What was the difference between the height of the plant in February and the height of the plant in April?

The graph shows the weight of a puppy as it grows.

When the puppy is ____ months old the weight is ____ kg

Between month ____ and month ____ the puppy increased by ____ kg

Write a story to match the graph.
