

English - Tuesday 21st April

1. Read the setting of "Escape to Pompeii" from the folder saved in Tuesday. Think about what Pompeii was like before the volcano erupted as it is described here. Can you picture it in your mind's eye? Draw a picture of what you think it looked like from the description. Around the picture write any words or phrases that are historical and useful vocabulary when we are writing a story set in Rome eg. "forum". This will create a bank of historical words and phrases we can use later. If you are able, share the picture with me via the class blog.

I have read the setting over a PowerPoint for those of you who might find this tricky to read - use the link
