

## Thomas Bullock CE Primary Academy

Home Learning – Year 6 – Wednesday 29<sup>th</sup> April 2020

Today's word of the day is **smouldering**. Define, use, understand! Synonyms, antonyms, real life contexts, draw it, create it (just don't set the house on fire!) ... you know what to do!

**English - Chapter 6 is available on SoundCloud** – listen in or read the chapter to yourself. <https://soundcloud.com/user-824194287/ink-and-stars-chapter-6/s-n040En52Xe3> The whole book is full of imagery and figurative language – description using metaphors and similes. See how many you can find in this chapter (I think there are at least six), and make a list of them in your English book. For each one, think about what it actually says, and what the author means by it. For example:

Example	Type of figurative language	What it says literally	What it means
'Sunrise had bled into the room'	metaphor	the sun is coming up and the light is bleeding	the light from the sun is red and it is creeping slowly into the room like blood oozing slowly.

This week's **spelling** There is a file of spelling activities for the whole week. Do one page each day. There are answers at the end. If you want to print these out then do, but you don't need to print them: you can copy them into your exercise book. Or come up with your own activities to practice the same words.

**Maths Scale factors.** Have a look at the White Rose video **Week 1 Lesson 5** 'using scale factors' and the activities that go with it. Don't forget to check your work with the answer sheet.

### Science

<https://www.youtube.com/watch?v=H8gX6a6yTT4>

I'd like you to watch this video about light reflecting and refracting, then have a go at some of the practical activities from the 'Science activities' file. As the video is on Youtube, please be aware of trailers and adverts.

**Computing** You can look at each-others' work from last week on Purple Mash – go to the green 'Sharing' tab, then 'Display Boards' and 'Pairs and Puzzle Games' These have been shared with YR and Y1 too, so they are having a go this week! Today's lesson is for you to make a science quiz all about light – check the file 'Computing activity' for the instructions on how to go about it.

Don't forget to look at the 'Thought for the Day' on the website, and also check in with the Class blog.
