

Thomas Bullock CE Primary Academy

Home Learning: Year 3 Topic Lessons

w/c 11th May

Science:

Fill in your investigation sheets. What has happened to your plant over the 2 weeks?

What went well with your experiment? What would you do differently next time?

Does your plant need longer before you can come to a conclusion? Is there anything else you would like to test?

Geography:

Using a map (you can use the online OS map again) create directions from your house to a place/person you would like to visit. Be clear with your instructions, for example use the road names you pass. Can someone in your house follow them using the map? Do they reach the right place?

If you are picking somewhere close by, try to follow your instructions during your daily walk.

In the folder are some direction cards you can try to follow! Do them around your house!

Art:

Can you create William Morris inspired art, but this time using real flowers around the garden or that you collect on a walk!? Remember to only pick flowers you are allowed to, flowers on the ground or flowers like daisies and dandelions, where there are plenty!

Have a look at my attempt - <https://vimeo.com/415840843>
