Diving into Mastery Guidance for Educators

Each activity sheet is split into three sections, diving, deeper and deepest, which are represented by the following icons:

Diving

Deeper

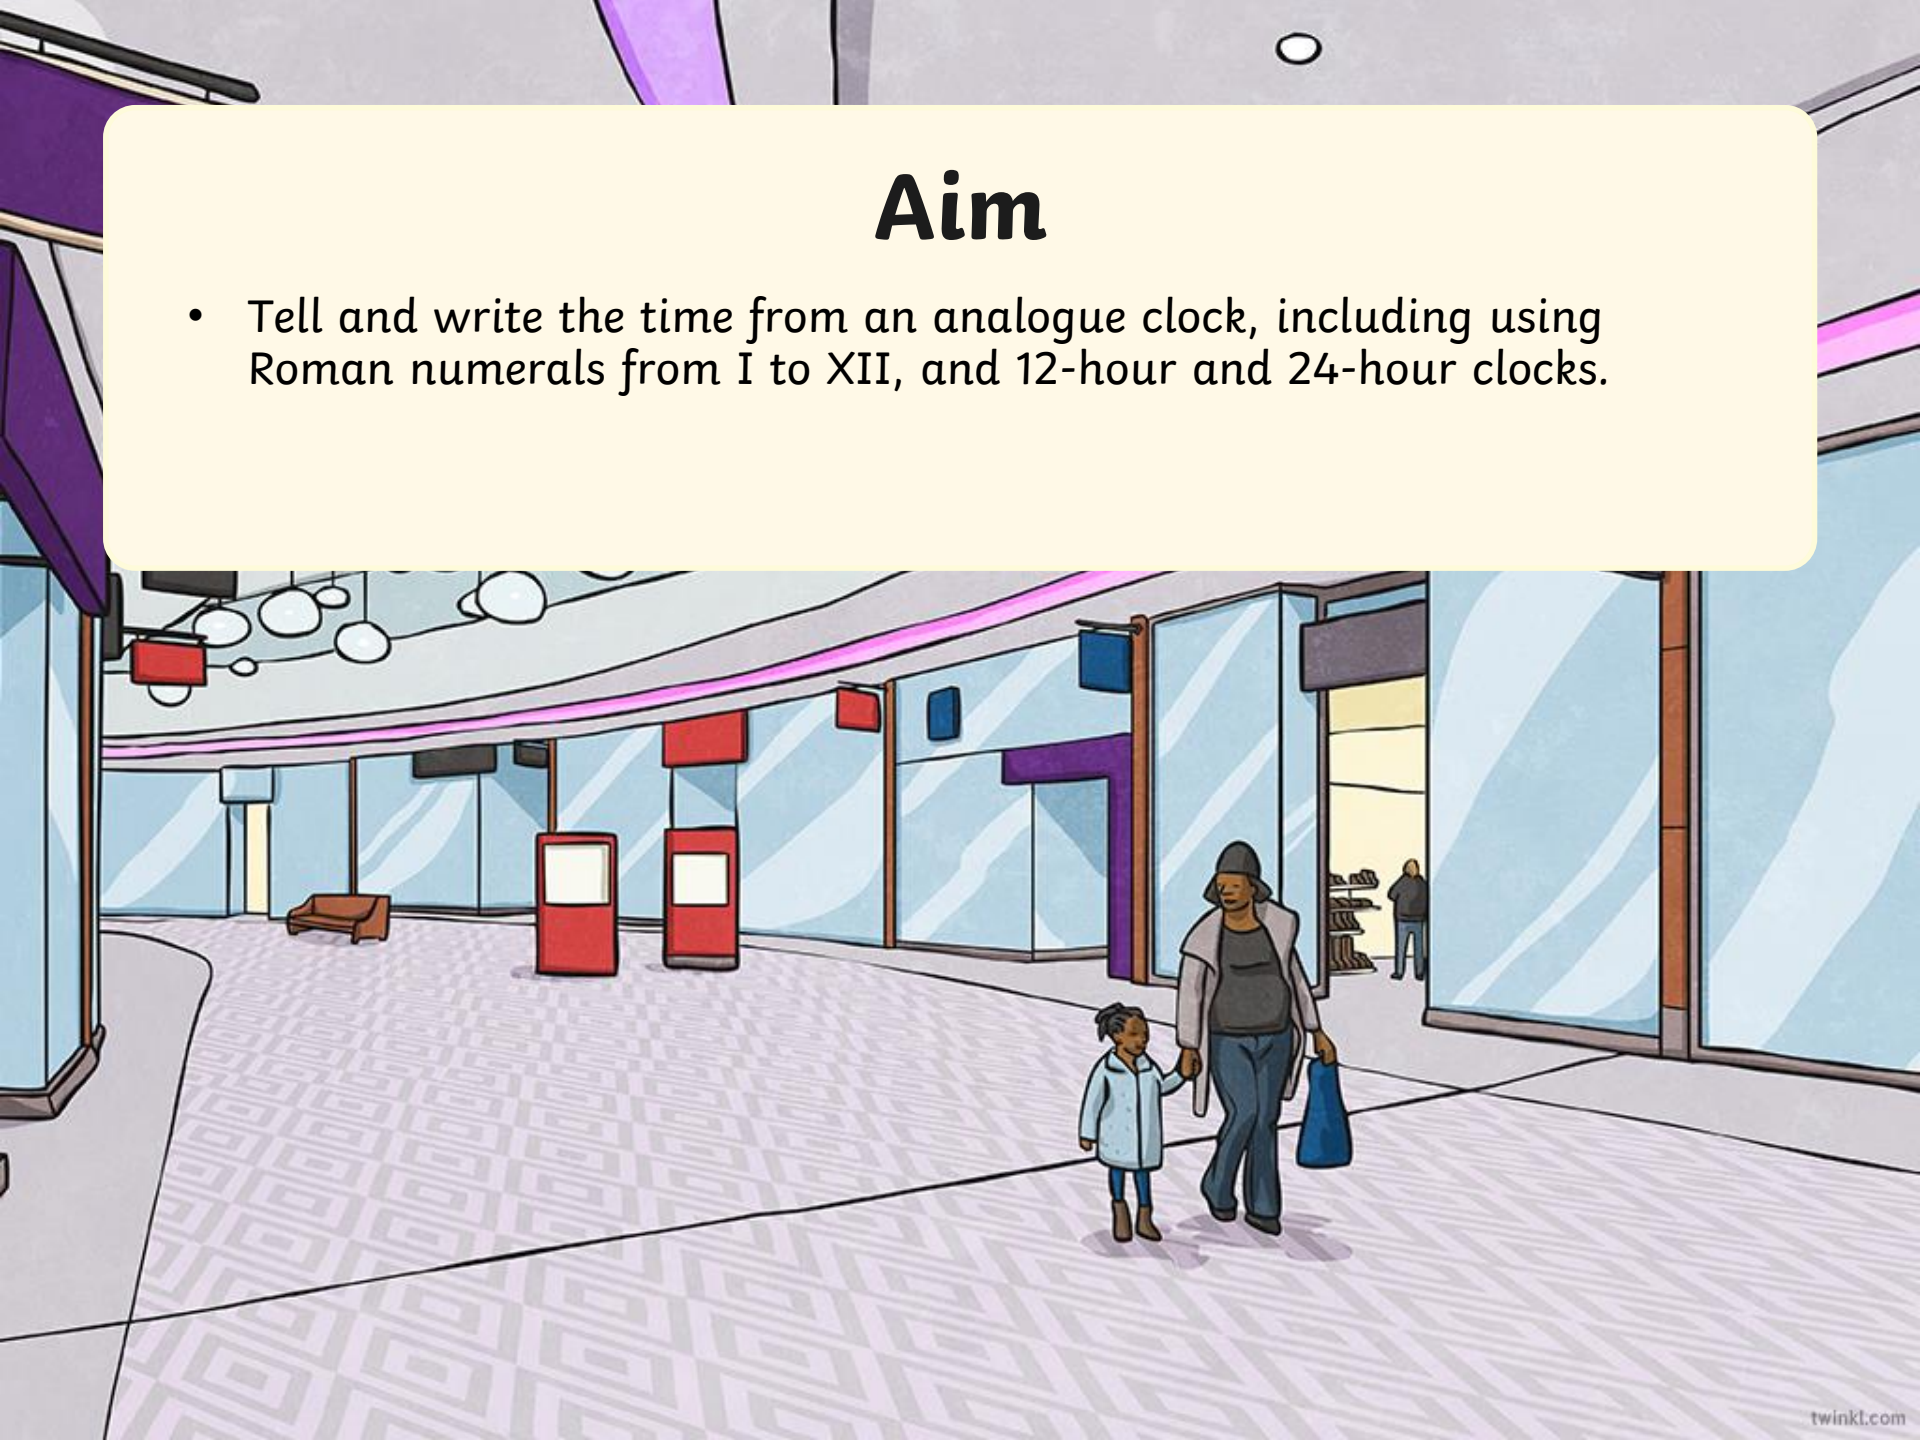

Deepest

These carefully designed activities take your children through a learning journey, initially ensuring they are fluent with the key concept being taught; then applying this to a range of reasoning and problem-solving activities.

These sheets might not necessarily be used in a linear way. Some children might begin at the 'Deeper' section and in fact, others may 'dive straight in' to the 'Deepest' section if they have already mastered the skill and are applying this to show their depth of understanding.

Telling the Time to the Minute

Deeper

Louise needs to be at the cinema at half past 8.
It takes her 28 minutes by car.

What is the latest time that
Louise can set off without
being late?

Two minutes past 8

If the movie lasts two hours, will Louise be home before eleven o'clock?

Explain your answer fully.

The film lasts until ten thirty.

Louise then has a journey of 28 minutes to get home.

This means that she will get home at two minutes to eleven.

Ethan and Adam are practising their times tables

Ethan practises for 23 minutes and starts at twenty past 2.
Adam practises for 26 minutes and starts at quarter past 2.

Ethan practises until ~~seventeen minutes to three~~
I started practising later than you so I
will finish a few minutes later than you.
Adam practises until ~~nineteen~~
minutes to 3.

I started practising
later than you so I
will finish a few
minutes later than
you.

Adam

I practised longer than you did.
Therefore, I'll finish later.

**Ethan is correct. He finishes
practising two minutes later
than Adam.**

I practised longer
than you did.
Therefore, I'll
finish later.

Who do you agree with?
