

Thomas Bullock CE Primary Academy

Home Learning: Year 3 Topic Lessons

w/c 1st June

Science:

This week is a shorter session, looking at how water is transported through plants. You need to go through the PowerPoint and then explain (through writing or through a diagram) the process. This is really important for next week!

Next week there will be an experiment to carry out to test this, which will be a much longer session (as we will be predicting and writing conclusions) and also require food colouring if you are able to get hold of some!

History:

It is your turn to do some research today! Can you find out who the Tudors were? Can you create a fact file of some key events that happened during the Tudor period?

There is a timeline activity in the file you may wish to complete. There are some words and events you may want to investigate further or check the meaning of!

Art:

This half term we are going to complete observational drawings!

Watch this video for some top tips! <https://www.youtube.com/watch?v=p8oTvT6LN5w>

You may want to choose a plant to try to sketch today from your garden!

PE

Joe Wicks, Go noodle, Cosmic Yoga
