

Pattern

William Morris

Introduction

- Your new project for this week and the next half term is that you are going to be looking at the artist **William Morris** and creating a print in his style.
- You will investigate Morris's artwork, practising the patterns of man-made/natural things around us.
- Eventually you will come up with your own design in the style of Morris.

Week One

Tile Page

- Complete the missing half of the William Morris design, on the sheets provided. You could do this in just ordinary pencil or in colouring pencil if you wish.
- Please be careful with your accuracy and symmetry, **take your time**. This will take a long time to do well!

Remember that your presentation is
VERY important.
