

Topic for w/c 11.05.2020 - Thursday

**L.O.** To learn how Roman Roads were constructed and understand why they were so important for the Roman Invasion of Britain and their legacy.

Watch my humble video introduction to Roman Roads here:

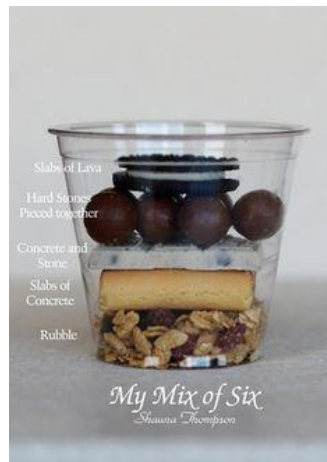

<https://vimeo.com/416933458>

Password: South America

Also, watch this BBC bitesize video about Romans roads and how they were constructed

<https://www.bbc.co.uk/bitesize/clips/zjc4d2p>

Your challenge this week is to build a Roman Road!!!! Here are some ideas about how you could do this using stones and a see though box, a mars bar (!), other sweet treats.....! Here is a mood board of ideas – or you can think of your own!!

How to  
Build a  
**Model of a  
Roman Road**

You might come up with your own way of doing this but the key is that your Roman road should have **LAYERS** and if possible demonstrate the importance of a **CAMBER**. Send me pictures of your creations via Class dojo or the class blog. Let me know if I can use them on our school social media also as it is great to share with everyone how hard you are all working!

**If you are not the creative type and prefer a more writing-based activity about roads I have included a comprehension about Roman Roads in today's folder!**
