

## Thomas Bullock CE Primary Academy

Home Learning – Year 6 – Thursday 14<sup>th</sup> May 2020

When you get outside for your daily exercise, see how many different types of trees you can spot.

Today's number of the day is **0.2**

What can you tell me about this number? How many different ways can you make it? Is it harder to make this, in comparison to 11 and 12 which are whole numbers? Use all 4 operations if you can (+, -, x, ÷) Can you draw it using different representations? When in everyday life might you come across 0.2 ?

**Maths – Ratio and proportion problem solving.** Today I would like you to do Lesson Two from Week Two of <https://whiterosemaths.com/homelearning/year-6/> - see the file about how to find today's maths if you're not sure where on the webpage to find this lesson. It is the next video on the same page as Monday's lesson, if that helps you find it more easily!

**English** We are carrying on with the work on the Girl of Ink and Stars. Please look at the menu and choose a task. Why not pick one of the more challenging tasks and work on it today and tomorrow?

I have now recorded some more chapters of the book and put them onto SoundCloud, so have a look at the file 'Girl I&S audio' for the updated links, and then have a listen.

This week's **spelling – as yesterday** - keep going with the spelling activities for this week. If you have finished all the pages already, then check that you can spell all of this week's words. If you can't, then practise! If you can, then find ways to include them in a piece of writing that also shows off your excellent grammar and punctuation skills.

**Science** I was going to set a new science lesson for today; however, I think I may have given you too much to do yesterday! Use this afternoon to either do or finish off your science lesson from yesterday - we'll carry on with the work on classification next week, so make sure you've completed this week's work before next Wednesday. If you've finished the science, then please use today to get up to date with your computing work on Purple Mash – your science quiz or the grammar games from yesterday.

**PE** There are new PE challenges for this week on the school website for you to have a go at, or you can log into Real:PE at home via the Jasmine website (The website address is: [home.jasmineactive.com](http://home.jasmineactive.com) Parent email: [parent@thomasbull-1.com](mailto:parent@thomasbull-1.com) Password: thomasbull) Alternatively, why not create your own PE challenge and set it for your friends or family?

Don't forget to look at the 'Thought for the Day' on the website, and also check in with the Class blog.
