

Thomas Bullock CE Primary Academy

Home Learning – Year 6 – Wednesday 13th May 2020

#HappybirthdayHarriet

Today's number of the day is $\frac{3}{4}$

What can you tell me about this number? How many different ways can you make it? Is it harder to make this, in comparison to 11 and 12 which are whole numbers? Use all 4 operations if you can (+, -, x, ÷) Can you draw it using different representations? When in everyday life might you come across $\frac{3}{4}$?

English

We are carrying on with the work from The Girl of Ink and Stars. It has been great to see work from several of you already, and I've loved seeing how you've tackled different tasks from the menu. Others of you have shared examples of work that you have decided to do based on the text that is 'off menu' – that's also OK! You may need to take a lesson or two to read the next chunk of the book to yourself, rather than focussing on doing writing tasks each day – this is also OK! I will be recording the next few chapters of the book today, so look out for information tomorrow about where to find them on SoundCloud.

I gave out 128 dojos last week for home learning!
Share more to earn more!

This week's **spelling** - keep going with the spelling activities for this week. If you have finished all the pages already, then check that you can spell all of this week's words. If you can't, then practise! If you can, then find ways to include them in a piece of writing that also shows off your excellent grammar and punctuation skills.

Maths – Ratio and Proportion – Similar shapes

Today's maths is recapping Monday's learning about similar shapes, this time working from Power Maths. Work through pages 171, 172 and 173 in your practice book. If you get stuck, go back to Monday's video from White Rose or work through the questions with the answer sheet – but TRY THEM FIRST yourself!

Science – Classification

Today we're starting our new science unit for the next two weeks which is all about how we group and describe living things. See the file, 'Science week 1' for information and activities to be done today – **we'll be carrying on the same theme tomorrow with more activities.**

Computing – Grammar quizzes See the computing file for information about how to make a grammar quiz using Text Toolkit on Purple Mash.

Don't forget to look at the 'Thought for the Day' on the website, and also check in with the Class blog.
