#bekind

Today's song of the day on the theme of the natural world is this one: <https://vimeo.com/10611659> It's about a creature called a triops – enjoy listening and watching the video, and then you could also see if you can look this creature up and find out some information about it. It is very unusual in many ways – and some of you may even have kept it as a pet at some time...

This week's **spelling** – Keep on going with the spelling activity sheets which I set for you yesterday. Can you spot any spelling patterns between your groups of words? If there are tricky words, have a go at inventing a way to remember them – like we did with the cards in class back in March, when we wrote out the words and highlighted the difficult bits.

Maths End of unit check – have a go at the end of unit 'test' to check your understanding of the ratio and proportion unit. There are also a final couple of pages (pg 180 and 181) in your Power Maths book to have a go at if you have time. Don't forget to check your answers with the answer sheets shared yesterday, and ask if you need help.

Science

Today's lesson is all about something called *keys*, which are used in science for identifying an unknown or unidentified living thing. These are not to be confused with the keys you use to unlock a door or the sort of key that you might get on a map! Tomorrow you will be making your own key to challenge someone else to identify some unidentified living things.

English Keep on working on the menu of activities from the Girl of Ink and Stars. This is our last week working on this, so take some time to read on if you haven't done so yet, or listen to the last few chapters on Soundcloud (see 'Girl I&S audio final update for an updated list of links for all the chapters up to the end of the book) Choose your activities from the menu, take your time and do your best! Then share your work with me and your friends via purple mash.

Computing

I'm not going to set any new computing this week as only 4 children completed last week's task (well done to Tilly, Charlie, Eliana and Lauren – you can put your feet up for this lesson!). I've re-set last week's work and I'd like you to have a go if you didn't manage to try last week. Save to your folder on Purple Mash so I can see your work.

Don't forget to look at the 'Thought for the Day' on the website, and also check in with the Class blog.
