

# Pattern

**William Morris**

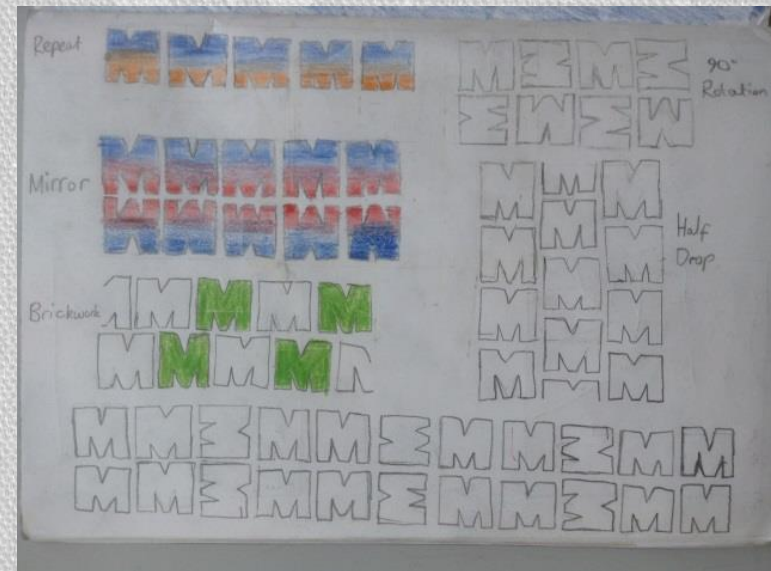

# Lesson 6

## Mirror, Rotation, Half-drop, Repeat, Brickwork

- In today's lesson you are going to practise different pattern techniques using the first letter of your name or surname, on one full page of plain paper.
- Have a look at the examples on the next page. Can you see what the designer has done each time with their letter?
- Which do you think is the most effective?
- Which techniques have they combined to make the final pattern?

Half Drop ▶

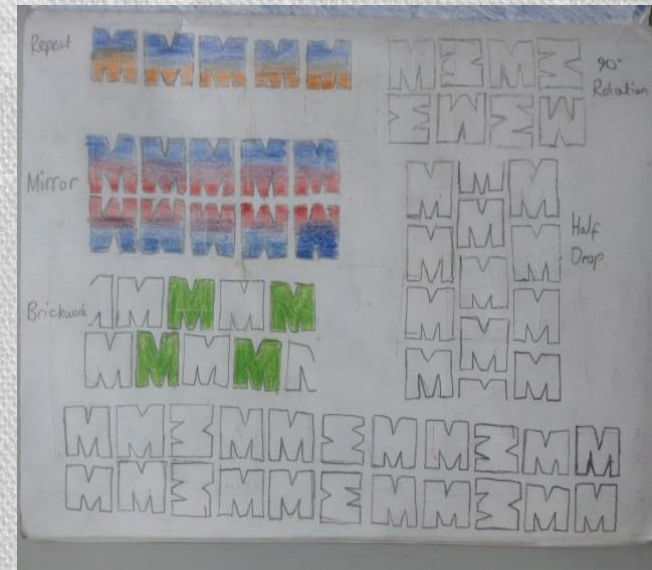

# Lesson 6

## Mirror, Rotation, Half-drop, Repeat, Brickwork

- Now have a go yourself!
- **Tips:**
  1. Remember to plan your page out with some guidelines first. Use **very gentle** pencil lines and a ruler to draw these guidelines.
  2. When drawing your letters, press lightly with your pencil. Once you are sure that you have got it right, you can go over your pattern with darker outlines and experiment with colouring in.
  3. Remember presentation is VERY important.
