

Weekly Maths Overview – w/c 6.7.2020

This week we will be looking at identifying lines of symmetry in 2-D shapes and patterns, completing a simple symmetrical figure and investigating problems involving symmetry.

Following positive feedback about the Oak National Academy we will be using them again this week. The links you need are below:

Monday

<https://classroom.thenational.academy/lessons/to-identify-lines-of-symmetry-in-2-d-shapes>

Tuesday

<https://classroom.thenational.academy/lessons/to-identify-lines-of-symmetry-in-a-pattern>

Wednesday

<https://classroom.thenational.academy/lessons/to-complete-a-simple-symmetrical-figure>

Thursday

<https://classroom.thenational.academy/lessons/to-investigate-a-problem-using-symmetry>

I will also attach an additional sheet of questions which you can print off and complete each day if you wish.

Don't forget to carry on with RMEasimaths!
