

September 2020 – Updated January 2, 2021

Remote Learning Arrangements for Children who are required to self-isolate due to COVID-19

This information is intended as a general guide to our procedures for implementing remote learning from September 2020. There are two scenarios outlined below; the first scenario where your child is not permitted to attend school as they have been advised to self-isolate in accordance with government guidelines, the second outlines the actions in case of a whole bubble not being allowed to attend school.

It is a good idea for all parents to ensure that their child can log on to RM Unify and access Google Classroom. now so that should they need to access remote learning they can do this with ease!

If you are self-isolating from your bubble in line with government or medical advice due to a member of your household testing positive for COVID-19 and the rest of your class is in school as normal:

- Work will be uploaded for you via Google Classroom by your child's class teacher. This will mirror the work that is taking place in class.
- Adults and pupils are responsible to access this work remotely.
- Tasks and a Google Meet session will take place for children.
- In EYFS these may be posted to Tapestry.
- Live, uploaded powerpoints and/or recorded will be provided for Maths and English via Google Meet for Years 1-6.
- A device may be provided, if available, and if you have indicated a need on our technology audit. Work may be returned via Google Classroom and this work will be marked by your child's teacher and feedback given when appropriate or back in school.

If your teacher is self-isolating but able to deliver lessons:

- The class will be supervised by a cover teacher or the class teaching assistant and the absent teacher will teach live lessons to the class via Google Meet.
- Work will be completed in books or uploaded to Google Classroom within school.

If your whole bubble or the entire school or particular year groups has been asked to self-isolate or learn remotely (but your teacher is well):

- School will provide live learning and pre-recorded sessions each day in line with your class timetable.
- This will be via Google Classroom and Google Meet inside your child's Google Classroom using your child's RM Unify account.
- The live learning will look different depending on the age of the children. The timing of your child's live-learning schedule and login's will be communicated by your child's teacher via Google Classroom.
- Devices and equipment may be provided for those who have indicated on our audit that they require assistance.
- Work must be uploaded to Google Classroom and will be marked and feedback given by your child's teacher in line with our policy

If your teacher is absent and unable to deliver lessons a cover teacher or teaching assistant will cover the class and work will be provided and uploaded to Google Classroom.

If your teacher is absent and unable to deliver lessons a cover teacher or teaching assistant will cover the class and work will be provided and uploaded to Google Classroom.

If your child is self-isolating and normally receives 1:1 support:

- Using our Pixl personalised learning checklists a programme of support will be set up which may include phone calls, group or 1:1 video chats with your child's support adult. This may not be daily and will be in addition to the work provided via Google Classroom.

If the school whole needs to close:

- In all year groups live and pre-recorded lessons will be provided via Google Meet and work will be uploaded via your child's Google Classroom. This will mirror the usual class timetable. For EYFS this will take place via Tapestry.

Parental and Pupil Support:

- Please see our parent guides to aid the use of Google Classroom:
<http://www.thomasbullock.dneat.org/parent-guides/>
- Should you have any questions about the work set or your child's learning, please have your child contact your child's usual teacher via Google classroom during normal school hours.
- Should you have any questions about accessing Google Classroom or technological support please contact us at office@thomasbullock.dneat.org so we can direct your query to the relevant member of staff.
