Wood	Plastic	Water	Fabric
			
Metal	Glass	Rock	

Sorting Objects

We can sort objects into groups by looking at what materials they are made from.

These objects have been sorted into ones that are made from plastic and ones that are made from wood.

Can you think of other ways we could sort these objects?

How do we describe materials?

We can describe this wood in different ways.

What are objects made from?

Objects can be made from different materials.
This teddy is made from fabric and it has eyes made from plastic.
What materials are different objects made from in your home?
