Summer Term 2 Newsletter

Europe Class
Year 5

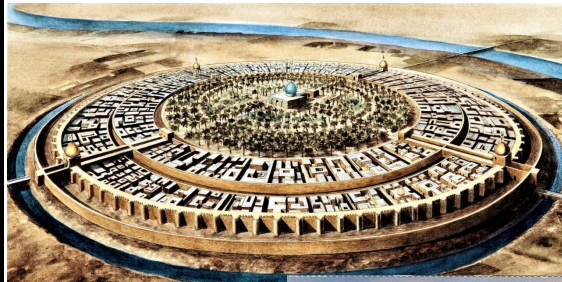

Welcome back!

I hope you all had a relaxing half term and enjoyed any Jubilee celebrations you may have attended. I can't believe we are about to enter the final half term of this school year! With Year 6 in sight could I please ask that you continue to encourage your child to complete their homework each week and ensure it is returned by Wednesday. Hopefully we will finally see some warmer weather this half term so could you ensure your child has sun cream, a hat and a water bottle as necessary. This half term we are looking forward to a visit to the Royal Norfolk Show, Sports Day and some exciting final topics.

Thank you for your continued support. Any queries please contact the school office and I will get back to you as soon as possible.

This half term's learning:

This half term's topic is all about **Baghdad and the Middle East**.

English learning objectives:

This half term we will begin by learning about persuasive writing and trying to use the features and techniques to persuade the class that our opinion is right! We will then be reading *The Golden Horsemen of Baghdad* and writing portal stories set in the city. We will end by looking at debating and writing balanced arguments about important issues.

Maths learning objectives:

We will finish learning about decimals and then link these to fractions and percentages before moving on to volume and converting units of measure. We will also learn more about 3D shapes and position and direction as well as revisiting time and timetables. Throughout the half term will continue our daily mental arithmetic sessions and recap any areas that the children found challenging to ensure they are fully prepared for Year 6.

Other curriculum areas :

In **Science** we will be learning about how humans change during their lives. We look at how babies develop, the physical and emotional changes which occur during puberty and the aging process.

In **Geography** we will be learning about Baghdad and the Middle East. We will look at how Baghdad was built, the Golden Age of Islam, developments in maths and science and compare it to London during the same period of time.

Our **Art** this half term will be linked to our Geography focus and we will be looking at Islamic art, patterns and designs before creating our own.

In **RE** we will be exploring the question 'How do Hindus Make Sense of the World?'

We will also be learning a little French, looking at concept mapping in computing and finding out more about how to keep ourselves healthy!
