# Key Stage One

**Wells Heritage Centre and beach** – Our Summer learning of 'Seaside's, now and then' gives way to a trip to our beautiful Norfolk Coast. The heritage centre is full of lots of useful information about how Wells has changed over time. Down on the beach the children collect and identify various shells before using them to create sculptures.

**Kimmy's Zoo** – We have been very lucky to have been visited in school by Kimmy's Zoo. This visit provides the children with a fun and interactive way to learn more about animals for their Science topic 'Amazing Animals'.

**Holkham Hall** – Linked to the topic of 'Tremendous Toys in Time' we have been lucky enough to take the children to visit Holkham Hall at Christmas time. It really has been a wonderful experience and the children have brought lots of useful information back to school.

**Sandringham** – A trip to Sandringham gives our children a fantastic opportunity to enforce their learning for the topic of 'Kings and Queens'. They are able to find out all about the previous Kings and Queens who have lived there, study timelines and further their learning about the History of our Monarchy.

**Africa Alive** – Linked to both the topic of 'Africa' in Geography and 'Habitats' in Science, the trip to Africa Alive has proved a hugely enjoyable and educational trip. The children are able to see and find out information about many different types of animals as well as listen to talks from the zoo keepers.
